The 17.18 is a low table carved out of one single piece of either carerra marble or black marquinia. A random configuration of water droplet shapes is carved into the 100 mm thick tabletop, with handmade porcelain bowls set into each one. No two tables are alike - the configuration and shape of the cavities and porcelain bowls is unique on each piece produced.

MATERIALS

carerra marble or black marquinia, handmade porcelain bowls in white or black
